Why are the workshops important?

The workshops are a mechanism for feedback on Transformation and an opportunity for impact on the directions of the project.

What is our challenge?

To produce output. We will be using quad charts later to help us capture group issues, recommendations, strategy/resource plan, and a timeline/deliverables.

Where will our information go from here?

Our output is given to the Community Change Leadership Team (CLT), who will consolidate and provide to the MILDEP with recommendations to continue on planned or recommended azimuth adjustments.

Roles and Responsibilities

Note Takers: Are to capture the notes of the workshop, and, especially, ideas, questions, and answers. There will be easel pads that, at the end of the workshop, the note taker can write out in the order in which the workshop decides.

Assists: Are to assist the initiative/workshop leads both at the conference and outside the conference. The assist is the official back-up to the lead.

Facilitators: Are the initiative/workshop leads who are responsible for facilitating the community workshop at the Acquisition Senior Leader's Conference.

Change Leadership Team workshop Representatives: Are to attend the workshop at the conference as the representative from his/her team. They are to provide comments as necessary and assist the facilitating if needed.

Rules of Engagement

- This is a non-attribution workshop.
- All voices will be heard. Everyone is encouraged and asked to participate.
- We agree that we can disagree, and agree to come to a consensus. Consensus is the name of the game.
- Don't shoot the messenger.
